

Retirement

After more than 25 years service with BST, Peter Harrison decided it was time to retire from the company and enjoy the next phase of his life. Pete is a much respected member of the Taranaki community and he will be missed by the Team at BST. Pete had a dream of driving a V8 Super Car in a few hot laps of a racetrack and BST made this wish come true as part of his farewell.

New Plymouth Appointment

Andre Kirk has been appointed Terminal Manager of our New Plymouth facility following the retirement of Pete Harrison. Andre has considerable Bulk Liquids handling experience from working almost 10 years at BST Mount Maunganui. We wish Andre, Esther and Family every success in the new role.

Wynyard Quarter

There has been considerable construction activity on the southern boundary of our Auckland Terminal in the lead up to the Rugby World Cup. The developments have changed the face of the Wynyard Quarter and The City of Auckland is to be congratulated for the quality of this development. BST was active and highly visible during the planning and consultation process to ensure that the bulk liquids industry would be able to continue to operate for the economic benefit of Auckland and to ensure a high degree of safety for the public through a comprehensive Quantitative Risk Assessment.
